

2012

Stainless Steel Focus

FEATURE PLAN

Every issue of **Stainless Steel Focus** features news from Europe and overseas; company news; company profiles; markets and views; processing; applications; and raw materials - nickel, chrome and stainless steel scrap. In addition, in 2011, each issue of **Stainless Steel Focus** will include one or more special features. The following special features are currently planned. We welcome suggestions from our readers for further special features which they would like us to consider.
